DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR

1.17(e), was filed in this application after allowance or after an Office action under Ex Parte Quayle, 25

USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination

under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this

application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 03/14/2006

has been entered. Claims 24-46 are currently pending with the application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be

unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure

consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stefan

Koshmeider on 05/23/2006.

The application has been amended as follows:

Cancel Claims 26-46.

The claims are cancelled with the intent to file a continuation application by the applicants.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 24-26 are allowed over the arguments by the applicants and the prior art of record that neither teaches nor fairly suggest a process of making an aqueous dispersion of the silicon-aluminum-mixed-oxide compositions having Si-O-Al bonds by the method steps employing high shear mixing with an input energy density of at least 200 KJ/m³. Neither the prior art by Deller et al (6,455,545), Schrafe et al (US 2001/0042493) nor the claims allowed in the application with Sl/No. 10/354,969 either teach or suggest the instant claimed process of making the silica-alumina dispersion. Although presence of such an energy input could have been inherent in the prior art processes, such inherency could not be established with absolute certainty.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kallambella Vijayakumar whose telephone number is 571-272-1324. The examiner can normally be reached on 8.30-6.00 Mon-Thu, 8.30-5.00 Alt Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Douglas McGinty can be reached on 571-272-1029. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
